BUSINESS RIGENERATIVO

È in corso un **cambiamento culturale** epocale di cui siamo orgogliosi di essere parte. Uno dei principi fondamentali di tutte le B Corp è quello di adottare un business rigenerativo che si contrappone a quello estrattivo.

Rigenerare significa non solo diminuire l'impatto sulla natura e sull'ambiente che ci circonda, ma addirittura produrre effetti positivi, creando valore condiviso nella società e rigenerando la biosfera.

Diventano B Corp solo quelle aziende che misurano il loro impatto complessivo attraverso il Benefit Impact Assessment (BIA) superando il punteggio di 80 (in una scala da 0 a 200) ed entrando così in una élite di imprese **rigenerative**. Chi non supera questa soglia viene considerata **azienda estrattiva** ovvero per funzionare consuma risorse economiche, sociali e ambientali superiori di quanto sia in grado di generare come output.

REGENERATIVE BUSINESS

An historical **cultural shift** is under way, of which we are proud to be a part. One of the underlying principles of all B Corps is the adoption of a regenerative business model as opposed to an extractive one.

Regenerating means not only reducing the impact of business on our surrounding nature and environment, but also producing **positive effects, creating shared value in society and regenerating the biosphere**.

Only those companies that measure their overall impact through the Benefit Impact Assessment (BIA) exceeding the score of 80 points can be certified as B Corp, joining an elite of **regenerative** companies. Anyone who does not exceed this threshold is considered an **extractive company** or, in order to function, they consume higher economic, social and environmental resources than they are able to generate as output.

IL PUNTEGGIO DI FLORIM

Il punteggio conseguito da Florim Italia è di 98,1 punti e il consolidato, che comprende la consociata americana, è di 90,9 punti. Così Florim rientra tra le migliori B Corp al mondo.

Solo il 3% delle aziende riesce a superare l'iter di verifica imposto da **B Lab**, ente certificatore di origine americana che oggi opera a livello globale.

EARTHTECH

Terra e tecnologia sono divenuti un binomio sempre più reale, portatore di una nuova consapevolezza che parte dalla nostra storia per creare un futuro responsabile. **Earthtech** è la sintesi di una mentalità contemporanea, capace di essere soggetto attivo nelle regole della costruzione circolare. Un prodotto tecnico tutta massa che amalgama insieme superficie e spessore, nato dalla miscelazione spontanea di piccoli frammenti e pigmenti di diversi colori. **Sei cromie** essenziali in accordo con le sfumature degli elementi naturali caratterizzano questa serie che propone tonalità facilmente abbinabili tra loro. **Ground** e **Flakes** sono le due famiglie estetiche in cui si sviluppa la collezione attraverso una palette cromatica neutra e due colori intensi, giallo e arancione. Nuove finiture, comfort e glossy-bright, ne arricchiscono le possibilità di utilizzo.

EARTHTECH

Earth and technology have increasingly become a truly dual concept, bearer of a new awareness coming from our past to create a responsible future. **Earthtech** is the synthesis of a contemporary mindset, capable of being an active player within the rules of circular construction. It is a full-bodied technical product which mixes together surface and thickness, born from the spontaneous blending of small fragments and pigments of different colours. **Six essential hues** in harmony with shades of natural elements are the distinguishing features of this series which offers easily matchable tones. **Ground** and **Flakes** are the two aesthetic families in which the collection develops, through a neutral colour palette and two intense colours, yellow and orange. New finishes, Comfort and Glossy bright enhance their potential uses.

La terre et la technologie forment désormais un binôme de plus en plus concret, porteur d'une nouvelle prise de conscience qui part de notre histoire pour créer un futur responsable. **Earthtech** est la synthèse d'une mentalité moderne, à même de jouer un rôle actif dans les règles de la construction circulaire. Un produit technique pleine masse qui amalgame surface et épaisseur, né du mélange spontané de petits fragments et pigments de diverses couleurs.

Six colorations essentielles en accord avec les nuances des éléments naturels caractérisent cette série qui propose des teintes pouvant facilement être combinées. **Ground** et **flakes** sont les deux familles esthétiques au sein desquelles se développe la collection à travers une palette chromatique neutre et deux couleurs intenses, le jaune et l'orange. De nouvelles finitions, Comfort et Glossy bright, enrichissent les possibilités d'utilisation.

Erde und Technologie wurden zu einer immer reelleren Kombination, zum Träger eines neuen Bewusstseins, das unsere Geschichte als Ausgangspunkt für die Schaffung einer verantwortungsbewussten Zukunft nimmt. **Earthtech** ergibt sich aus einer zeitgenössischen Mentalität, die bei den Regeln zur Kreislaufbauwirtschaft eine aktive Rolle spielt. Ein ganzscherbiges technisches Produkt, das Oberfläche und Masse vermengt und aus der spontanen Mischung kleiner Fragmente und verschiedenfarbiger Pigmente entsteht. **Sechs Farben** widerspiegeln die Nuancen der Naturelemente und zeichnen diese Serie mit ihren untereinander leicht kombinierbaren Farbtönen aus. **Ground** und **Flakes** sind zwei ästhetische Varianten, in denen sich die Kollektion durch eine neutrale Farbpalette und zwei intensive Farben, gelb und orange, entwickelt. Neue Oberflächen, Comfort und Glossy-Bright, vervielfältigen ihre Einsatzmöglichkeiten.

La tierra y la tecnología se han convertido en un binomio cada vez más real, portador de una nueva sensibilidad que echa raíces en nuestra historia para crear un futuro responsable. **Earthtech** es la síntesis de una forma de pensar contemporánea, capaz de participar activamente en la economía circular del sector de la construcción. Un producto técnico toda masa que conjuga superficie y grosor, fruto de la mezcla espontánea de pequeños fragmentos y pigmentos de varios colores. **Seis colores** básicos, acordes con los matices cromáticos de los elementos naturales, componen esta serie caracterizada por tonalidades fáciles de combinar entre sí. **Ground** y **flakes** son las dos familias estéticas en las que se articula la colección, por medio de una paleta cromática neutra y dos colores intensos: el amarillo y el naranja. Se enriquece con los nuevos acabados Comfort y Glossy-bright, que amplían sus posibilidades de uso.

In relazione alle differenti tecnologie produttive l'accostamento di prodotti con spessori diversi potrebbe presentare delle disomogeneità, se ne sconsiglia pertanto l'abbinamento.
 Due to the different production technologies, contiguous installation of products with different thickness may give a non-homogeneous result. For this reason we do not recommend this option. / Vu

Le lastre ceramiche sono sottoposte a un trattamento di compattazione termica che assicura resistenza e durata nel tempo. Il bassissimo assorbimento d'acqua rende perciò il materiale ingelivo. Ciò può comportare ristagni d'acqua superficiali anche per materiale installato a regola d'arte. / Ceramic tiles undergo a compacting thermal treatment that ensures resistance and durability. The low level of water absorption makes the slabs frost resistant. This could result in superficial water stagnations even if materials are installed in a workmanlike manner. / Les carreaux de céramique subissent un traitement thermique de compactage qui assure résistance et durabilité.
