PURITY OF MARBLE BRECCE

# PURITY OF MARBLE

## La purezza e l'eleganza del marmo.

La nobiltà del marmo e la raffinatezza delle venature cromatiche trovano un perfetto punto d'incontro in Purity of Marble. Un progetto completo in gres porcellanato e rivestimenti in pasta bianca che interpreta in chiave ceramica l'eleganza e la bellezza di diversi marmi pregiati offrendo all'architettura contemporanea soluzioni progettuali di design.

*The purity and elegance of marble*  
The nobility of marble and the refinement of coloured veining find their perfect balance in Purity of Marble. A project range complete with porcelain stoneware and white body walltiles that uses ceramics to interpret the elegance and beauty of ten precious marbles offering today's architecture solutions for project design.

## La pureté et l'élégance du marbre.

La noblesse du marbre et le raffinement de ses veinures chromatiques trouvent un parfait point de rencontre au sein de Purity of Marble. Un projet comprenant du grès cérame et des revêtements en pâte blanche qui interprète, sous le signe de la céramique, l'élégance et la beauté de dix marbres de valeur tout en offrant à l'architecture contemporaine des solutions conceptuelles de design.

## Die Reinheit und Eleganz von Marmor.

Edler Marmor und elegante farbige Äderungen treffen bei Purity of Marble perfekt aufeinander. Ein komplettes Sortiment von Feinsteinzeug und weißscherbigen Wandfliesen lässt die Eleganz und Schönheit von zehn edlen Marmorarten und bietet der modernen Architektur ein Angebot von Designlösungen.

Purity of Marble Élite, insieme a Purity of Marble Brecce e Tuscany, appartiene alla collezione Purity of Marble, che conta complessivamente 19 tipologie diverse di marmi, realizzati con straordinario realismo in gres porcellanato e in pasta bianca, proposti in diversi formati, con diverse finiture di superficie per rispondere a qualsiasi esigenza progettuale.

Purity of Marble Élite, with Purity of Marble Brecce and Tuscany, belongs to the Purity of Marble collection, which includes a total of 19 different types of marble, produced with extraordinary realism in porcelain tiles and white body, offered in different sizes, with different surface finishes to meet any design requirement.

Avec Purity of Marble Brecce et Tuscany, Purity of Marble Élite fait partie de la collection Purity of Marble, qui comprend au total 19 différents types de marbres, fabriqués avec un réalisme extraordinaire en grès cérame et en pâte blanche, proposés en divers formats et différentes finitions de surface afin de répondre à toutes les exigences de conception.

Purity of Marble Élite gehört zusammen mit Purity of Marble Brecce und Tuscany zur Purity of Marble Kollektion; diese umfasst insgesamt 19 verschiedene Marmorarten, die außergewöhnlich real aussehen, aus Feinsteinzeug und Weißscherben kreiert wurden und in verschiedenen Größen und mit unterschiedlichen Oberflächenfinishes angeboten werden, um jedem Designwunsch gerecht zu werden.

Scolpire non è scavare una pietra,  
è trovare il respiro della vita in essa e rivelarlo.

Sulle superfici di Purity of Marble rivive tutto il fascino  
dei marmi più pregiati, unici nella loro bellezza.  
Delicate venature, profondi dettagli cromatici e nobili sfumature  
rivelano l'essenza più intima della materia e arredano gli spazi,  
conferendogli eleganza e luminosità.

Sculpting is not carving stone, it is finding the breath of life  
in it and revealing it.

All the charm and unique beauty of the most precious marbles are brought to life in the Purity of Marble  
surfaces. Delicate vein markings, intense chromatic details and noble nuances reveal the most intimate  
essence of the material and decorate the spaces, creating a sense of elegance and luminosity.

Sculpter une pierre sans la creuser, c'est y trouver  
le souffle de la vie et le révéler.

Sur les surfaces de Purity of Marble, c'est tout le charme des marbres les plus inestimables et les  
plus beaux qui revit. De frêles veinures, de profonds détails chromatiques et de nobles nuances  
révèlent l'essence la plus intime de la matière et revêt les espaces d'élegance et de lumière.

Der Bildhauer meißelt nicht in Stein, sondern findet das Leben darin und  
lässt es wieder ans Licht treten.

Die Fliesen der Kollektion Purity of Marble bringen die ganze Faszination von edlem Marmor von  
einzigartiger Schönheit zum Ausdruck. Zarte Äderungen, tiefe farbige Details und edle Nuancen  
lassen den intimsten und wesentlichsten Charakter dieser Fliesen hervortreten und gestalten die  
Räume, verleihen ihnen Eleganz und freundliche Helligkeit.

# CAPRAIA

Su un fondo bianco puro, si intrecciano venature che sfumano dal grigio al bordeaux, che caratterizzano uno dei marmi più pregiati, dando vita ad ambienti unici, raffinati, di puro design.

A pure white background is streaked by crossing veins ranging from grey to burgundy, which distinguish one of the finest marbles, creating unique, sophisticated settings with a pure design.

Sur un fond blanc pur se mêlent des veines qui vont du gris au bordeaux, pour caractériser un des marbres les plus précieux, donnant vie à des espaces uniques, raffinés, de pur design.

Auf einer purweißen Grundfarbe verweben sich Maserungen in den Farben von Grau bis Bordeaux und charakterisieren einen der wertvollsten Marmorsteine, mit dem einzigartig raffinierte Design-Umgebungen gestaltet werden können.

Nei colori Purity Tuscany e Purity Elite è possibile posare le lastre con disegno continuo tra un pezzo e l'altro, come nei marmi più pregiati. Eventuali disallineamenti tra le venature sono da considerarsi caratteristica intrinseca del prodotto. L'inserimento delle lastre nelle confezioni è causale, pertanto Supergres non garantisce le tipologie di facce presenti all'interno di ogni singola confezione. L'immagine rappresentata serve a dare un'idea indicativa del prodotto, toni e venature possono essere quindi suscettibili di variazioni.

In the Patagonia, Purity Tuscany and Purity Elite colours, the slabs can be installed with a continuous design from one piece to the next, just as in the most prized marbles. Any mismatches between vein patterns should be considered to be intrinsic characteristics of the product. The order in which the slabs are packed is random, so Supergres does not guarantee the types of faces found in each individual pack. The image shown is designed to provide an indicative idea of the product, the colours and vein patterns may therefore vary.

Dans les couleurs Purity Tuscany et Purity Elite, il est possible de poser les lattes avec un dessin continu entre deux pièces, comme dans les marbres les plus précieux. Les éventuels désalignements entre les veines doivent être considérés comme une caractéristique intrinsèque du produit. L'insertion des lattes dans les lots est fortuite. De ce fait, Supergres ne garantit pas les types de faces présentes à l'intérieur de chaque lot. L'image représentée sert à donner une idée indicative du produit ; les teintes et les veines peuvent donc être susceptibles de variations.

In den Farben Purity Tuscany und Purity Elite ist es möglich, die Platten mit einem durchgehenden Muster zwischen den einzelnen Stücken zu verlegen, wie bei feinstem Marmor. Jede Abweichung zwischen den Maserungen ist eine inhärente Eigenschaft des Produkts. Die Platten werden gemischt in die Pakete verpackt, so dass Supergres keine Garantie für die Arten von Flächen in jedem einzelnen Paket übernimmt. Das Bild liefert eine ungefähre Darstellung des Produkts; Farbtöne und Maserungen können daher abweichen.

AVVERTENZE PER LA POSA . RECOMMENDATIONS FOR INSTALLATION .  
Recommendations pour la pose . Verlegetipps

Per la posa del materiale rettificato si consiglia una fuga minima di 2 mm.

As for rectified materials, it is strongly recommended a minimum of 2 mm joint.

Pour poser du matériel rectifié nous vous conseillons un joint minimum de 2 mm.

Für die Verlegung des kalibrierten Material empfehlen wir einen Mindestfuge von 2 mm.

La finitura superficiale "LUX" è una nuova tecnica di lappatura di ceramiche Supergres, caratterizzata da una superficie a lappatura integrale che esalta i dettagli della grafica. Le piccole picchiettature, le discontinuità e le leggere ondulazioni della superficie del prodotto sono volute per riprodurre fedelmente l'aspetto reale delle pietre e dei marmi antichi levigati donando al prodotto un aspetto ancora più naturale. La finitura LUX è consigliata per l'utilizzo a pavimento negli ambienti residenziali e negli ambienti dove non siano richieste delle particolari prestazioni antiscivolo. Per le sue caratteristiche, la finitura LUX è raccomandata solo in ambienti interni e non a diretto contatto con l'esterno, in modo da preservare la brillantezza della superficie

The "LUX" surface finish is a new honing technique by Ceramiche Supergres that sets itself apart thanks to an integral honing on the surface that exalts the graphic details. The light speckles, the random effect and slight waves on the surface of the product are intentional and created to faithfully reproduce the aspect of age-old polished stones and marble, giving the product an even more natural look. The LUX surface finish is recommended for floor application in residential venues and in locations where special anti-slip performance is not required. Due to these features, in order to maintain the brilliance of the LUX surface finish, it is only suitable for indoor use and not for use in direct contact with outdoor areas.

La finition superficielle "LUX" est une nouvelle technique de rodage de céramique Supergres, caractérisée par une surface intégralement rodée qui exalte les détails du graphisme. Les petites tiquettes, les discontinuités et les légères ondulations de la surface du produit sont réalisées pour reproduire fidèlement l'aspect réel des pierres et des marbres antiques polis, en donnant au produit un aspect encore plus naturel. La finition LUX est conseillée pour l'application au sol dans les espaces résidentiels et dans les espaces qui n'exigent pas la finition antidérapante. Pour ses caractéristiques, la finition LUX est conseillée seulement pour des espaces intérieurs qui ne sont pas en contact direct avec l'extérieur, de façon à préserver l'éclat de la surface.

Die Oberfläche "LUX" wird aufgrund einer neuen Läpptechnik von Ceramiche Supergres erhalten und kennzeichnet sich durch integral geläpppte Oberflächen, wodurch die Details der Grafiken besonders hervorgehoben werden. Die kleinen Sprengel, die Diskontinuitäten und die sanften Wellen der Oberfläche des Produkts sind gewollt und ahmen naturgetreu das wirkliche Aussehen der Natursteine und der polierten, antiken Marmorarten nach, während sie dadurch dem Produkt eine noch natürlichere Optik verleihen. Die Oberfläche LUX ist für den Einsatz als Fußboden in Wohnambienten und in Umgebungen, in denen keine speziellen rutschhemmenden Leistungen erforderlich sind empfohlen. Aufgrund ihrer Eigenschaften ist die Oberfläche LUX nur für Innenräume geeignet, die nicht in direktem Kontakt mit dem Außenbereich kommen, so dass der Glanz der Oberfläche erhalten bleibt.

## DISCLAIMER

Supergres raccomanda l'utilizzo delle grandi lastre per la posa a parete e su pavimenti e rivestimenti preesistenti in ambito residenziale e commerciale leggero e comunque in contesti ove non vi sia il passaggio di carichi puntuali pesanti o transito di carrelli a ruote dure. Nel caso invece di posa a pavimento, direttamente su massetto, Supergres sconsiglia l'utilizzo di queste lastre in quanto tale applicazione è fortemente condizionata dall'esecuzione ottimale del massetto stesso, dalla sua completa stagionatura, dal rispetto degli opportuni giunti di dilatazione nonché dalla posa effettuata a regola d'arte. Pertanto, in caso di posa diretta su massetto, Supergres suggerisce l'utilizzo di gres porcellanato a spessore tradizionale.

## DISCLAIMER

Supergres recommends the installation of 6 mm thick extra large slabs only in the following conditions: residential environments, commercial environments that are subject to light traffic and in any case in contexts where there is no regular passage of heavy loads or circulation of trolleys with hard wheels.

The range of 6 mm thick extra large slabs is suitable for installation on existing floors: the slabs can be installed on old floors or marble, natural stone and ceramic claddings, without the need to demolish the existing underlying floor.

ATTENTION: it is not recommended to install these slabs on a screed directly, since the results of installation strictly relate to the condition - excellent - of the screed, to its seasoning, to the provision of expansion joints, as well as to perfect installation in accordance to "the rules of the trade". In these cases, Supergres recommends the use of porcelain stoneware with a conventional thickness.

## AVERTISSEMENT

Pour le revêtement des sols, Supergres conseille l'utilisation des grandes dalles d'une épaisseur de 6 mm uniquement pour le secteur résidentiel, les zones commerciales à trafic léger et, quoi qu'il en soit, dans des contextes ne prévoit pas le passage de charges lourdes ponctuelles ou de chariots à roues dures.

La gamme de grandes dalles d'une épaisseur de 6 mm est indiquée pour la pose sur des sols préexistants : il est possible d'effectuer la pose sur de vieux sols ou des revêtements en marbre, pierre naturelle, céramique sans devoir pour autant démolir le sol sous-jacent.

ATTENTION ! La pose de ces dalles directement sur la chape est fortement déconseillée. En effet une pose sur chape exécutée dans les « règles de l'art » dépend beaucoup de l'exécution optimale de la chape elle-même, de son séchage complet et du respect du positionnement des joints de dilatation. Dans ces cas, Supergres suggère l'utilisation d'un grès cérame à épaisseur traditionnelle.

## HAFTUNGSAUSSCHLUSS

Supergres empfiehlt die Verwendung der großen Platten in 6 mm Stärke als Bodenbelag nur für den Wohnungsbau, für nur leicht beanspruchte Gewerbeobjekte und in jedem Fall nur in Bereichen, in denen keine konzentrierten, schweren Lasten vorhanden sind bzw. die nicht von Transportwagen mit Hartgummirädern befahren werden.

Die 6 mm starken, großen Platten eignen sich für die Verlegung über bereits vorhandenen Bodenbelägen: Eine Überverlegung auf bestehenden Bodenbelägen aus Marmor, Naturstein, Keramik ist möglich, ohne den vorhandenen Belag demolieren zu müssen.

ZUR BEACHTUNG: Von der Verlegung dieser Platten direkt auf den Estrich wird abgeraten. Grund hierfür ist, dass die Verlegung auf Estrich in hohem Maße von der perfekten Ausführung des Estrichs selbst abhängt, von seiner vollständigen Aushärtung, von der korrekten Ausführung der Dehnungsfugen sowie von der „fachgerechten Verlegung“ im Allgemeinen. In diesen Fällen empfiehlt Supergres daher die Verwendung von Feinsteinzeug in traditioneller Stärke.
